

EMPLOYEE SERVICE AWARD
BEN SANCHEZ
NOVEMBER, 2007

Ben Sanchez, Carpenter, Facilities Maintenance, Public Works Division, began his employment with Monroe County in December, 2006. While he has just been with us a little over a year, Ben's carpentry skills and work ethic have made quite an impression.

Most recently he assisted with moving the County Attorney's office to their new office location. The new space was not furnished with cabinets, or any form of adequate storage for office supplies, but Ben came to the rescue. He reclaimed all of the existing cabinetry from the old location and installed it in the new location. Throughout the chaos and constant changes of the move, Ben had an amazing attitude and an amazing work ethic. He always works quickly and efficiently, and he is always very positive to be around; we are fortunate to have such a team player on our side.

Ben is an asset to Public Works and Monroe County and we are proud to recognize him today as the recipient of the Employee Service Award for November, 2007. Keep up the good work!
